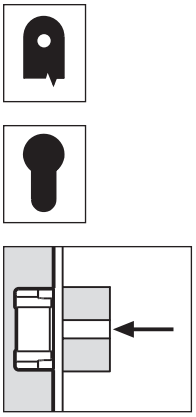
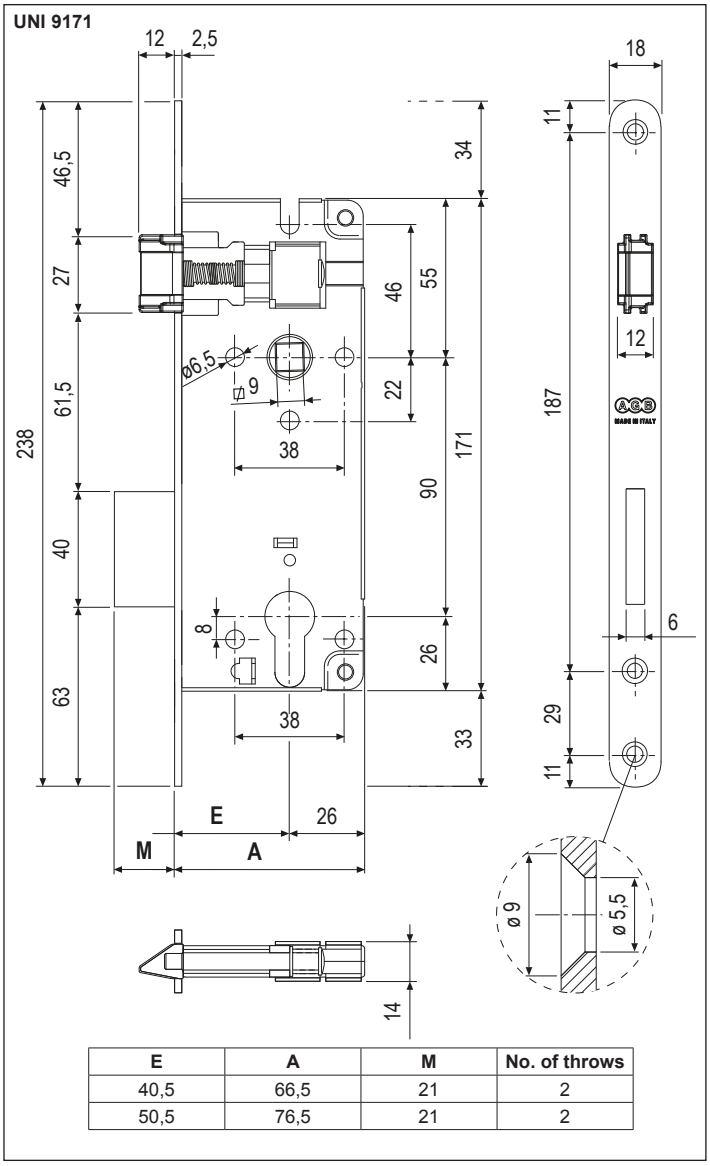
Mod. 2590 round ends with cylinder lock, 90 mm centre, 18 mm forend





E	A	M	No. of throws
40,5	66,5	21	2
50,5	76,5	21	2

Description

Embedded lock with spring latch and bolt. 90 mm centre. 18 mm forend with round ends. Mortice version with two backsets, 40 and 50 mm. Steel forend and lockcase. Made entirely of steel with patented co-moulded selflubricating latch and steel bolt. Reversible spring latch, it is moved only with the handle. Case with holes for handle installation using through screws.

Application

For interior timber doors. Specially suitable for doors with narrow stiles.

Mounting

Prepare cutout and mill the panel according to the dimensions shown in the diagram. Fasten with 3 screws, 4 mm diameter, of suitable lenght. To reverse the spring latch, push it out of the forend by pushing with a screwdriver against the screw on the back, then rotate it.

Note. *The striker, selected according to the construction type, must be ordered separately.*
